

## Master of Public Administration

### Program learning outcomes: What Will I Learn?

1. Integrate fundamentals of leadership and management theory and practice within public administration.
2. Apply public administration principles within diverse organizations and populations to achieve positive outcomes for the citizenry.
3. Interpret and analyze data to formulate and influence decision-making.
4. Assess the use of technology to assist in solving complex problems and optimizing resources.
5. Apply ethical standards to the practice of public administration.

*This program began enrolling students in April 2015 and does not have sufficient results to present outcomes data at the program level. Data represented on this site includes information on programs that have been in existence longer than 3 years, and have available direct and indirect learning outcomes data on at least 20 students, or unless otherwise specified by specialized accreditation to require reporting of all results less than  $n = 20$ .*
