

TO: Future Excelsior University MS and RN MS Nursing Students
FROM: Excelsior University Admissions Office
RE: MS Capstone Requirements

As part of your MS program, you will be required to design a capstone project in your specialty area of nursing (Nursing Leadership and Administration, Nursing Education, or Nursing Informatics). This includes working with a volunteer mentor you identify who meets our requirements^① and will facilitate the creation, design, and implementation of a quality improvement project in your specialty. This work is done as part of course requirements and with the guidance of faculty. The capstone is the final course in your program. We ask that as you progress through your program, you begin thinking about a project and possible mentor, so that you are prepared to start your capstone in a timely fashion.

If you plan to complete your capstone practice experience at a facility that requires an affiliation agreement, you may need to meet facility specific requirements. These may include, but are not limited to, a confidentiality statement, a criminal background check, current CPR certification, health records (current physical examination, current tuberculosis screening, MMR vaccination, Varicella vaccination, Hepatitis B vaccination, diphtheria/tetanus booster, and current influenza vaccination), drug screening, and infection control education. Facilities may have additional requirements such as attending an orientation, purchasing an electronic name badge, or having a specific type of insurance. Students unable or unwilling to provide required documentation are responsible for identifying an alternative experience. Excelsior University cannot assist with placement of a student in the desired practice experience if the student is not able to meet facility requirements. Students are responsible for all costs associated with facility requirements. In the event of an accident or illness during participation in the capstone practice experience, the student incurs all costs.

Some facilities require an affiliation agreement with Excelsior University. This is a contractual agreement between Excelsior University and the facility outlining the responsibilities and liabilities of both parties. If the facility where you plan to do your capstone requires an affiliation agreement, you need to submit a request to Excelsior University in advance to allow time to process the agreement. The request is submitted to PracticeExperience@excelsior.edu and includes the facility name, the physical address of the facility, and the email and phone number of the contact person at the facility. The due dates for the request are:

TERM CAPSTONE BEGINS	AFFILIATION AGREEMENT SUBMISSION DEADLINE
Spring term (January)	October 1 of previous year
Summer term (May)	February 1 of current year
Fall term (August)	May 1 of current year

CONTINUED ON NEXT PAGE

① Individuals meet the requirement if they hold a master's degree or higher, have expertise in the focus of the capstone project, and agree to voluntarily serve as a resource for the student. Students' direct supervisors, family, and close friends cannot serve as practice experience mentors.

Excelsior University is unable to enter into affiliation agreements for capstones in Guam and California.

In order to process your application for admission to the School of Nursing, select one of the options listed below. Then sign and return this document for processing.

- ☐ I am aware of the current program requirements for completing the MS capstone course as part of the Excelsior University School of Nursing. **Please proceed with my application.**
- ☐ I have decided NOT to enroll in Excelsior University at this time. **Please cancel my application and return my fee.**

Signature _____ Date _____

Print Name _____

Excelsior University ID # _____
