

The MathWorks, Inc.

Software License Agreement

IMPORTANT NOTICE

READ THE TERMS AND CONDITIONS OF YOUR LICENSE AGREEMENT CAREFULLY BEFORE COPYING, INSTALLING, OR USING THE PROGRAMS OR DOCUMENTATION.

THE LICENSE AGREEMENT TOGETHER WITH ANY APPLICABLE ADDENDUM REPRESENTS THE ENTIRE AGREEMENT BETWEEN YOU (THE "LICENSEE") AND THE MATHWORKS, INC. ("MATHWORKS") CONCERNING THE PROGRAM(S) AND DOCUMENTATION.

BY COPYING, INSTALLING, OR USING THE PROGRAMS AND DOCUMENTATION, YOU ACCEPT THE TERMS OF THIS AGREEMENT. IF YOU ARE NOT WILLING TO DO SO, DO NOT COPY, INSTALL, OR USE THE PROGRAMS AND DOCUMENTATION.

The MathWorks, Inc. Software License Agreement	1
Installation and Use Addendum (if applicable)	5
Academic Installation and Use Addendum (if applicable)	7
Student License and Home License Installation and Use Addendum (if applicable) ..	9
Deployment Addendum	10

The MathWorks, Inc. Software License Agreement

1. DEFINITIONS.

- 1.1. **"Licensee"** means you, whether an individual or an entity, to whom MathWorks grants the License, and who is responsible for complying with the contractual obligations of the License, and ensuring that anyone permitted access to the Programs also complies with such obligations.
- 1.2. **"Affiliate"** means a legal entity which is controlled by, or controls, or is under common control with Licensee. Control means (i) beneficial ownership of at least fifty percent (50%) of the voting securities of a corporation or other business organization with voting securities, or (ii) a fifty percent (50%) or greater interest in the profits and capital of a partnership or other business organization without voting securities, provided that no other individual or entity other than the Licensee also has an equal fifty percent (50%) ownership or interest in the legal entity. Notwithstanding the foregoing, unless MathWorks provides its express written consent to treat the entity as an Affiliate, an Affiliate shall not include any entity that MathWorks has expressly refused to license (or grant access under a license to) its software products or that had a license for MathWorks software products that MathWorks expressly terminated.
- 1.3. **"Application"** shall have the meaning ascribed to it in Section 4.1 of the *Deployment Addendum* anywhere the term is used in the upper case in this Agreement.
- 1.4. **"Computer"** means either (i) a single physical hardware system containing a single motherboard running an operating system, or (ii) a virtual machine running an operating system.
- 1.5. **"Documentation"** means the user guides, if any, accompanying delivery of a Program on DVD or made available at mathworks.com/help, as may be updated from time to time, including the bug reports made available at mathworks.com/support/bugreports. Documentation may be delivered in any medium or language.
- 1.6. **"Internal Operations"** means the use of a Program by employees, consultants, student interns, and software administration contractors of Licensee or an Affiliate on behalf of the Licensee or Affiliate.
- 1.7. **"Licensed User"** means an individual authorized by MathWorks or the Licensee to use the Programs for Licensee's Internal Operations, to the extent permitted by the License Option acquired.
- 1.8. **"License Manager"** means the FlexNet license management software or the MathWorks Hosted License Manager ("MHLM"), provided with the Program(s).
- 1.9. **"License Option"** means the specific rights, restrictions, and obligations under which Licensee may install and use a Program pursuant to this Agreement as described in the applicable *Installation and Use Addendum*, and including restrictions associated with the License being an "Annual License," "Term License," "Perpetual License," "Student License," "Home License," or "Certain MATLAB Distributed Computing Server ("MDCS") Uses," as described under Article 10 of this Agreement.
- 1.10. **"Licensor"** means the person who, or entity which, grants a license to MathWorks to redistribute that person's or entity's intellectual property.
- 1.11. **"Perpetual License"** means the right to use the License indefinitely provided that the Licensee always remains in compliance with the terms of this Agreement.
- 1.12. **"Program"** means the software licensed hereunder, including Documentation, enhancements and error corrections. Each product licensed hereunder is a separate Program.
- 1.13. **"Third Party"** means any person or legal entity that is not MathWorks, the Licensee, or an Affiliate.
- 1.14. **"Third Party Software"** means the software referenced in Article 8 of this Agreement.

2. **ACCEPTANCE AND REFUNDS.** If Licensee does not accept the terms and conditions of this License and any applicable Addendum, or if Licensee terminates this License, for any reason, within thirty (30) days of Program delivery (the "Acceptance Period"), then Licensee shall immediately return the Programs licensed hereunder to MathWorks or the authorized distributor from whom Licensee acquired the Programs and, if returned within the Acceptance Period, shall receive a full refund. By retaining a Program throughout the Acceptance Period, Licensee accepts the applicable rights, and agrees to be bound by the applicable obligations and restrictions, of this Agreement including the License Option acquired with respect to that Program.
3. **PROGRAM TRIAL EVALUATION.** Licensee agrees to use any Program provided to Licensee as a trial or evaluation only for the period of the trial evaluation which may be controlled by a license key code, only to evaluate it individually for potential purchase of a license to the Program as an end-user, to conduct no business with it, and to remove it and all result files produced from any of Licensee's computers at the end of the trial or evaluation period and to comply with all other obligations and restrictions in this Agreement.
4. **LICENSE GRANT.** The MathWorks Programs are licensed, not sold. MathWorks hereby grants to Licensee, subject to the terms of this Agreement, a nonexclusive license (the "License") to:
 - 4.1. install and use the Programs solely on Computers controlled by Licensee, in accordance with the License Option acquired as provided in the relevant *Installation and Use Addendum*, and solely for Internal Operations;
 - 4.2. provide access to online Documentation on Licensee's intranet, provided it is not accessible over the open Internet;
 - 4.3. print portions of the online Documentation for reasonable use by Licensed Users; and
 - 4.4. use the Programs as expressly set forth in the *Deployment Addendum*.
5. **LICENSE RESTRICTIONS.** The License is subject to the express restrictions set forth below and any other restrictions set forth in any signed agreement between MathWorks and Licensee. Licensee shall not, and shall not cause or permit any Affiliate or any Third Party to, directly or indirectly:
 - 5.1. modify or create any derivative work of, a Program or any part of a Program, except as expressly permitted in Article 8 of this Agreement and in the *Deployment Addendum*. Notwithstanding anything to the contrary contained herein, any such permitted modifications must be consistent with all other terms of this Agreement;
 - 5.2. use a Program or any part of a Program, for any act which infringes copyright of a Program including developing, producing, or testing a computer program containing a feature or functionality that is substantially similar in its expression to the expression contained in a Program or any part of a Program;
 - 5.3. adapt, translate, copy, or convert all or any part of a Program in order to create software, a principal purpose of which is to perform the same or similar functions to a Program or to replace a Program or any component of a Program;
 - 5.4. rent, lease, or loan the Programs; use the Programs for supporting Third Parties' use of the Programs, time share the Programs, or provide service bureau or similar service use;
 - 5.5. disassemble, decompile, reverse engineer a Program, or any portion thereof, or attempt to gain access to its method of operation or source code;
 - 5.6. sell, license, sublicense, provide access, publish, display, distribute, disseminate, assign, or otherwise transfer (whether by sale, exchange, lease, gift, or otherwise) to a Third Party the Programs, any copy or portion thereof, or any License or other rights thereto, in whole or in part, without MathWorks' prior written consent, except as expressly permitted in the *Deployment Addendum*;

The MathWorks, Inc. Software License Agreement

- 5.7. alter, remove, or obscure any copyright, trade secret, patent, trademark, logo, proprietary and/or other legal notices on or in copies of the Programs;
 - 5.8. use MathWorks' name, trade names, logos, or other trademarks of MathWorks or any of its Affiliates or Licensors in any advertising, promotional literature or any other material, whether in written, electronic, or other form, distributed to any Third Party, except in the form provided by MathWorks, and then solely for purposes of identifying MathWorks' Programs;
 - 5.9. provide access (directly or indirectly) to the Programs via a web or network Application, except as permitted in Article 8 of the *Deployment Addendum*;
 - 5.10. copy, make available for copy, or otherwise reproduce the Programs, in whole or in part, except either (a) as may be required for their installation for the purpose of executing the Program in accordance with the License Option, (b) as expressly permitted in the *Deployment Addendum*, or (c) to make a reasonable number of copies solely for back-up purposes provided that any such permitted copies shall reproduce all copyright, trade secret, patent, logo, proprietary and/or other legal notices contained in the original copy obtained from MathWorks;
 - 5.11. access or use Programs that Licensee is not currently licensed to access or to use;
 - 5.12. allow the Programs to be accessed or used by a Third Party except as specifically provided in this Agreement.
 - 5.13. disclose or transfer the activation key, login credentials, and/or license file to a Third Party, or allow them to be used by a Third Party except as provided herein;
 - 5.14. republish the Documentation, except as expressly permitted in Article 4 of this Agreement;
 - 5.15. create a server for code generation or deployment Applications for any of the MATLAB Compiler, MATLAB Compiler SDK, MATLAB Coder, Filter Design HDL Coder, Simulink Coder, HDL Coder, Simulink PLC Coder, Embedded Coder, Simulink Design Verifier, Simulink Verification and Validation, Simulink Code Inspector, MATLAB Report Generator, and Simulink Report Generator Programs;
 - 5.16. disable or circumvent any technical limitations in the Programs or disregard other limitations as set forth in mathworks.com/ineligible_programs including those limitations that prevent certain Programs or Program components from being compiled, distributed, called from a web application, or used with the MATLAB Distributed Computing Server, as the case may be. Licensee agrees not to work around these limitations;
 - 5.17. access, enable access to, modify, translate, or deploy temporary intermediate files produced by a Program;
 - 5.18. make any use of the License on behalf of or for the benefit of a Third Party or an Affiliate in any manner that would constitute a violation of this License if such use were directly made by the Third Party or the Affiliate or cause any Third Party or Affiliate to make any use of the License on behalf of or for the benefit of Licensee or an Affiliate in any manner that would constitute a violation of this License if such use were directly made by Licensee or Affiliate;
 - 5.19. acquire the License if a principal purpose of the acquisition is to transfer or assign the License to a Third Party unless expressly permitted by MathWorks;
 - 5.20. mechanize or automate the process of checking out or in license keys for one or more Programs, including by running a second session of a Program, running a Program to serve multiple users, or rebooting the License Manager, for a principal purpose of minimizing the License check out time of any Programs, or otherwise circumventing the intended License Manager operation;
 - 5.21. use a License Manager other than the one which was provided with the most recent version of the Programs Licensee is using;
 - 5.22. take any action that requires any portion of the Programs to be made subject to end-user rights incompatible or inconsistent with the restrictions set forth in this Agreement; and/or
 - 5.23. with respect to a complimentary License that is awarded by MathWorks for student and similar competitions, course support, research, fellowship participation, and teaching assistance, contravene any additional restrictions set forth in the award letter provided to Licensee.
6. **ADDITIONAL FEES.** The fees for the License are determined based upon the country where all Licensed User(s) are principally located. Additional fees may apply to a transfer of the License, or the principal location of any Licensed User, to another country, or to contract for global use. MathWorks may restrict a transfer of a License to another country or restrict its use in another country if MathWorks reasonably believes that such transfer or use will result in a breach of this Agreement.
 7. **RETENTION OF RIGHT, TITLE AND INTEREST BY MATHWORKS AND ITS LICENSORS.** The Programs shall at all times remain the property of MathWorks and/or MathWorks' Licensors and Licensee shall have no right, title, or interest therein, except as expressly set forth in this Agreement. Licensee shall take appropriate action by instruction, agreement, or otherwise with any persons permitted access to the Programs, so as to enable Licensee to satisfy its obligations under the terms of this Agreement, including disabling access to the Programs, in the event of a transfer of the License.
 8. **LICENSES FOR THIRD PARTY SOFTWARE, SERVICES, AND DATA.** MathWorks has been granted licenses to distribute certain Third Party Software as part of or included with the Programs licensed. These licenses require MathWorks to distribute the software to Licensee subject to specific terms and conditions, which may provide rights and impose restrictions for use of the Programs, including deployment of Applications, that are different from or additional to those contained herein. Should such Third Party Software be provided under the Lesser General Public License, Licensee may make modifications of the work identified in Section 6 of the Lesser General Public License for Licensee's own use and reverse engineering for debugging such modifications. Licensee agrees that acceptance of this Agreement also confirms Licensee's acceptance of any applicable Third Party Software licenses. Such Third Party licenses may be viewed at mathworks.com/thirdpartylicenseagreementsR2016b. Certain MathWorks Programs may also provide an interface to facilitate Licensee's use of Third Party services and data governed by the terms and conditions set forth in such Third Party's applicable agreements with Licensee. This Agreement does not grant any additional rights to access or use such Third Party services or data made accessible through the use of MathWorks Programs.
 9. **SOFTWARE MAINTENANCE SERVICE.** During any paid Software Maintenance Service term, if applicable, MathWorks shall provide its customary Software Maintenance Service for the licensed Programs which consists of: delivering subsequent releases of the Programs, if any, that are not charged for separately; exerting reasonable efforts to both (a) provide, within a reasonable time, workarounds for any material programming errors in the current release of the Programs that are directly attributable to MathWorks, and (b) correct such errors in the next available release, provided Licensee provides MathWorks with sufficient information to identify the errors. During this same paid Software Maintenance Service term, Licensee shall also be entitled to receive technical support for the current release. Technical support means assistance by telephone, web, and e-mail with the installation and/or use of the then-current release of the licensed Programs, including all available bug fixes and patches, and their interaction with supported hardware and operating systems ("Platforms"). Software Maintenance Service may provide access to certain online features and services made available by MathWorks from time to time. Licensee understands and agrees that access to such online capabilities shall expire unless Licensee renews its Software Maintenance Service. MathWorks reserves the option to discontinue, in whole or in part, and at any time, offering Software Maintenance Service and/or technical support for any Program, feature of a Program, or Platform, or to refuse to provide

The MathWorks, Inc. Software License Agreement

Software Maintenance Service to a Licensee whom it reasonably believes is in breach of this Agreement.

10. LICENSE DURATION ("TERM"). This Agreement shall continue until the earlier of (a) termination by MathWorks or Licensee as provided below, or (b) such time as there are no Programs being licensed to Licensee hereunder.

10.1. For Annual Licenses: Licensee understands and agrees that each Annual License and associated Software Maintenance Service will expire automatically and the Programs will stop operating promptly after its corresponding one (1) year period, unless Licensee renews its License by remitting the then-current annual License fee and provided the Licensee always remains in compliance with the terms of this Agreement.

10.2. For Term Licenses: Licensee understands and agrees that each Term License and associated Software Maintenance Service will expire automatically and the Programs will stop operating promptly after the corresponding period of the term licensed, unless Licensee renews its License by remitting the then-current term License fee and provided the Licensee always remains in compliance with the terms of this Agreement.

10.3. For Perpetual Licenses: Licensee shall have the right to use the Programs indefinitely, subject to the termination provisions in this Agreement. **Licensee understands and agrees that the Software Maintenance Service for each Perpetual License will terminate automatically upon expiration of the initial Software Maintenance Service term included with the acquisition of the License.** Thereafter, the Software Maintenance Service term may be renewed for any Program, at the then-current price, and for the then-applicable term, as long as MathWorks offers such Software Maintenance Service for such Program and provided the Licensee always remains in compliance with the terms of this Agreement.

10.4. For Student Licenses and Home Licenses: See the *Student License and Home License Installation and Use Addendum* for the License Term.

10.5 For Certain MDCS Uses: Licensee's use of MDCS in the manner described in Section 3.2.2 of either the *Installation and Use Addendum* or the *Academic Installation and Use Addendum* may be terminated at any time upon sixty days' notice, or sooner if, for any reason, MathWorks is involuntarily required to terminate the availability of such use.

11. TERMINATION. MathWorks may terminate this Agreement and all Licenses granted hereunder by written notice to Licensee if Licensee breaches any material term of this Agreement, including failure to pay any License fees due, and Licensee has not cured such breach within sixty (60) days of written notification. MathWorks may immediately terminate this Agreement and all Licenses granted hereunder if, after requesting and failing to receive from the Licensee adequate assurances of compliance with the terms of this Agreement, MathWorks reasonably believes that Licensee is or is intending to breach any material term of this Agreement. MathWorks may immediately terminate upon notice this Agreement and all Licenses granted hereunder should Licensee breach the terms and conditions of Articles 4, 5, 7, and/or 12. If Licensee or any of its Affiliates commences or participates in any legal proceeding against MathWorks or any of MathWorks' Affiliates challenging or asserting any intellectual property rights in or against any of the Programs licensed hereunder, then MathWorks may, without waiving any other legal rights or remedies available to it, immediately terminate this License. The foregoing sentence only applies to (a) a Licensee who has as its principal business the holding of patents and who does not engage, either directly or through an Affiliate, in any material active business of making products that embody the patents or (b) a Licensee who engages, either directly or through an Affiliate, in a principal business of licensing or making available commercial off the shelf ("COTS") software to Third Parties. Licensee may terminate this License at any time, for any reason. Licensee shall not be entitled to any refund if this License is terminated, except for License fees paid for any Programs for which the Acceptance Period has not expired at the time of termination. Upon termination for any reason, Licensee shall promptly return all but archival copies of the Programs in Licensee's possession or control, or promptly provide written certification of their destruction.

12. EXPORT CONTROL. The Programs may be subject to U.S. export control laws or other (U.S. and non-U.S.) governmental export and import laws and regulations. Notwithstanding any other term of this Agreement or Third Party agreement, Licensee's rights under this Agreement may not be exercised by Licensee or any Third Party in violation of such laws and regulations, nor may this Agreement be transferred to any party where doing so would result in such a violation. The terms of any limitation on the use, transfer or re-export of the Programs imposed by MathWorks in any Destination Control Statement or other document for the purpose of export control shall prevail over any term in this Agreement. It shall be Licensee's responsibility to comply with the latest United States or other governmental export and import regulations.

13. FEDERAL ACQUISITION. This provision applies to all acquisitions of the Programs and Documentation by, for, or through the federal government of the United States. By accepting delivery of the Programs or Documentation, the government hereby agrees that this software or documentation qualifies as commercial computer software or commercial computer software documentation as such terms are used or defined in FAR 12.212, DFARS Part 227.72, and DFARS 252.227-7014. Accordingly, the terms and conditions of this Agreement and only those rights specified in this Agreement, shall pertain to and govern the use, modification, reproduction, release, performance, display, and disclosure of the Programs and Documentation by the federal government (or other entity acquiring for or through the federal government) and shall supersede any conflicting contractual terms or conditions. If this License fails to meet the government's needs or is inconsistent in any respect with federal procurement law, the government agrees to return the Programs and Documentation, unused, to MathWorks.

14. EUROPEAN UNION SOFTWARE DIRECTIVE. For any Licensed User properly licensed to use the Programs within the European Union, any contractual provisions of this Agreement contrary to laws implemented pursuant to Article 6 of Directive 2009/24/EC of the European Parliament and of the Council of 23 April 2009 on the legal protection of computer programs or to the exceptions provided for in Article 5(2) and (3) of such Directive shall be null and void solely to the extent decompiling, disassembling, or otherwise reverse-engineering of the Programs is necessary to enable the Licensee to achieve the interoperability of an independently created program with the Programs or any other permitted objectives specified by such laws implemented under such Directive (collectively, the "Permitted Objectives"), consistent with the Directive, provided that any such information gained is used solely for such Permitted Objectives and solely in the European Union.

15. TAXES, DUTIES, CUSTOMS. Absent appropriate exemption certificates or other conclusive proof of tax exempt status, Licensee shall pay all applicable sales, use, excise, value-added, and other taxes, duties, levies, assessments, and governmental charges payable in connection with this Agreement or the Licenses granted hereunder, excluding taxes based on or measured by MathWorks' income, for which MathWorks shall be solely responsible.

16. ASSIGNMENT. Licensee may not assign or otherwise transfer this Agreement and any License hereunder, by operation of law or otherwise, without the written consent of MathWorks. Licensee agrees that MathWorks may withhold such consent if it determines, in its sole discretion, that a principal purpose of the acquisition of this License was to assign the License to a Third Party. In the case of any permitted or other lawful assignment or transfer, the terms of this Agreement, including any License hereunder, shall be binding upon, and inure to the benefit of, the transferee or assignee.

17. LIMITATION OF LIABILITY. The Programs should not be relied on as the sole basis to solve a problem or implement a design whose incorrect solution or implementation could result in injury to person or property. If a Program is employed in such a manner, it is at the Licensee's own risk and MathWorks and its Licensors explicitly disclaim all liability for such misuse to the extent allowed by law. MathWorks' and MathWorks' Licensors' liability for death or personal injury resulting from negligence or for any other matter in relation to which liability by law cannot be excluded or limited shall not be excluded or limited. Except as

The MathWorks, Inc. Software License Agreement

aforsaid, (a) any other liability of MathWorks and its Licensors (whether in relation to breach of contract, negligence or otherwise) shall not in total exceed the amount paid to MathWorks under this Agreement in the twelve month period preceding the claim in question, for the Program with respect to which the liability in question arises; and (b) MathWorks and its Licensors shall have no liability for any indirect or consequential loss (whether foreseeable or otherwise and including loss of profits, loss of business, loss of opportunity, and loss of use of any computer hardware or software). Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above exclusion or limitation may not apply to Licensee.

18. LIMITED WARRANTY/LIMITATION OF REMEDIES. MathWorks warrants that MathWorks, on its own behalf or through its Licensors, has the right to grant the License rights hereunder. MathWorks warrants that the physical media provided shall be free from defects in material and workmanship for a period of ninety (90) days from delivery, or it will be replaced by MathWorks at no cost to Licensee. MathWorks further warrants, for a period of one (1) year from delivery or for the term of the License, whichever is less, that each copy of each Program will conform in all material respects to the description of such Program's operation in the Documentation. In the event that a Program does not operate as warranted, Licensee's exclusive remedy and MathWorks' sole liability under this warranty shall be the correction or workaround by MathWorks of major defects within a reasonable time. Should such correction or workaround be impractical, MathWorks may, at its option, terminate the relevant License and refund the initial License fee paid to MathWorks for such Program. All requests for warranty assistance should be directed to The MathWorks, Inc., 3 Apple Hill Drive, Natick, MA 01760-2098, U.S.A.

19. DISCLAIMER OF WARRANTIES. Except for warranties expressly set forth in Article 18 of this Agreement (or as implied by law where the law provides that the particular terms implied cannot be excluded by contract), any and all Programs, Documentation, and Software Maintenance Services are delivered "as is" and MathWorks makes and the Licensee receives no additional express or implied warranties. MathWorks and its Licensors hereby expressly disclaim any and all other conditions, warranties, or other terms of any kind or nature concerning the Programs, Documentation, and Software Maintenance Services (including, without limitation, any with regard to infringement, merchantability, quality, accuracy, or fitness for a particular purpose or Licensee's purpose). MathWorks also expressly disclaims any warranties that may be implied from usage of trade, course of dealing, or course of performance. Except for the express warranties stated in Article 18 of this Agreement, the Programs, Documentation, and Software Maintenance Services are provided with all faults, and the entire risk of satisfactory quality, performance, accuracy, and effort is with Licensee. MathWorks does not warrant that the Programs and Documentation will operate without interruption or be error free. Some states and countries do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to Licensee. The warranty in Article 18 gives Licensee specific legal rights and Licensee may also have other rights which vary from state to state and country to country. Licensee accepts responsibility for its use of the Programs and the results obtained therefrom.

20. GOVERNING LAW; JURISDICTION. This Agreement shall be interpreted, enforced and construed and the rights of the parties hereunder governed in all respects by the laws of the State of Delaware, United States of America, without regard to its conflicts of law provisions, and both parties consent to the jurisdiction of the federal and state courts located in said State and consent to the service of process, pleadings and notices in connection with any and all actions initiated in such courts. The parties agree that a final judgment in any such action or proceeding shall be conclusive and binding and may be enforced in any other jurisdiction. To the extent any governing law, treaty, or regulation is in conflict with this Agreement, the conflicting terms of this Agreement shall be superseded only to the extent required by such law, treaty, or regulation. If any provision of this Agreement shall be otherwise unlawful, void, or otherwise unenforceable, that provision shall be enforced to the maximum extent permissible. In either case, the remainder of this Agreement shall

not be affected. The parties agree that the U.N. Convention on Contracts for the International Sale of Goods shall not apply to this Agreement. The parties further agree that the Uniform Computer Information Transactions Act, or any version thereof, adopted by any state, in any form ("UCITA"), shall not apply to this Agreement. To the extent that UCITA is applicable, the parties agree to opt out of the applicability of UCITA pursuant to the Opt-Out provision(s) contained therein.

21. COMPLIANCE WITH LICENSES. Licensee agrees to notify MathWorks promptly upon discovery of any failure to comply with this Agreement. Licensee agrees that, no more than once every twelve (12) months or within a reasonable time after a transfer, in addition to any other remedies at law or in equity, MathWorks or its authorized representative shall, upon reasonable prior notice, have the right to inspect Licensee's and Licensee's Affiliates' records, systems, and facilities, during normal business hours, to verify that Licensee's and its Affiliates' use of the Programs is in conformity with valid licenses and otherwise comply with this Agreement. If a verification discloses that Licensee's or any of its Affiliates' use is not in conformity with a valid license, Licensee shall immediately take all necessary steps to cure any past defaults, including paying any unpaid license fees, to bring Licensee's or any of its Affiliates' use into conformity.

22. LICENSE MANAGEMENT. The Programs contain technology for the prevention of unlicensed use. The Programs require activation to exercise your rights under this Agreement. You may also need to activate if you redesignate the Programs on your License or modify your hardware.

Activation associates the use of the Programs with a specific Computer, and in some cases the Licensed User. During activation, data about the Programs and the Computer will be transmitted to MathWorks. This data includes the License information, Computer identification, and location. Some License Options may require the MathWorks Account information and the operating system user name for the Licensed User. A License file will be provided to complete activation.

23. HEADINGS. The inclusion of headings is for convenience of reference only and shall not affect the construction or interpretation of this Agreement.

24. ENTIRE AGREEMENT. This Agreement, and any applicable Addendum thereto including any documents referenced therein are incorporated herein by reference, and contain the entire understanding of the parties and may not be modified or amended or superseded except by a written agreement signed by MathWorks and Licensee. Such written agreement may include, in addition to any other terms, restrictions on Licensee's use of the Programs that are in addition to or inconsistent with the terms set forth in this Agreement including any addendum to this Agreement. In the event of any conflict between this Agreement and any purchase order executed by Licensee (whether executed before or after this Agreement), this Agreement shall prevail.

The MathWorks, Inc. Software License Agreement – Installation and Use Addendum

This is an Addendum to *The MathWorks, Inc. Software License Agreement (the "Agreement")*, and the terms and conditions of this Addendum are incorporated therein. Each capitalized term used herein and not defined herein shall have the meaning ascribed to it in the Agreement.

1. **SCOPE.** The Installation and Use provisions of this Addendum apply to each Program licensed under the Agreement. The applicable provisions are determined by the particular License Option that Licensee acquired.
2. **DEFINITIONS.**
 - 2.1. **Licensed User.** An individual authorized by the Licensee to use the Programs for Licensee's Internal Operations, to the extent permitted by the License Option acquired.
 - 2.2. **License Option.** The specific rights, restrictions, and obligations under which Licensee may install and use a Program pursuant to the Agreement.
 - 2.3. **Named User.** A Licensed User designated and identified by Licensee as the "Named User" for a License to a Program under either the "Individual" or "Network Named User" License Option.
3. **INSTALLATION AND USE.** Specific rights, obligations, and restrictions apply to each License Option. Licensee's right to install and use the Programs is determined by the License Option acquired. By accepting the terms and conditions of the Agreement, Licensee also accepts the License Option acquired.
 - 3.1. **License Options.**
 - 3.1.1. **Individual.** Program use is restricted to the single, designated Named User. Programs may be activated and used on one or more individual Computers, provided the Programs are only accessible to, and used by, the Named User for that License. The physical locations of the Computers used by the Named User to run the Programs are not limited; the Computers may be located at work, home, in a laboratory, or on a laptop. Licensee may only designate one Named User access to or use of the Programs under each Individual License. A Computer login of a Named User may not be shared with any other individual. Licensee may redesignate the Named User for a Program, whether temporarily or not, no more than four (4) times in any twelve (12) month period. A Named User may not use a Program on more than two (2) Computers simultaneously.
 - 3.1.2. **Designated Computer.** The Programs may only be activated and used on a single, physical (not virtual) designated Computer; provided the Programs are only operated from that Computer's console by only one Licensed User at any given time. Licensee may redesignate the Computer for a Program to a different Computer, whether temporarily or not, no more than four (4) times in any twelve (12) month period.
 - 3.1.3. **Network Named User.** Programs must be activated on a single Computer. Licensee must run the License Manager and edit the Local License Options file to maintain a list of Named Users authorized to use each Program. Licensee may redesignate Named Users for a Program, whether temporarily or not, no more than four (4) times in any twelve (12) month period, provided the number of Named Users never exceeds the number licensed per Program. Programs may be installed in a central location or on individual Computers to accelerate startup times, as long as the use on all Computers is controlled by the License Manager. A Named User may not use a Program on more than two (2) Computers simultaneously. A Computer login of a Named User may not be shared with any other individual.
 - 3.1.4. **Concurrent.** Programs must be activated on a single Computer. Licensee must run the License Manager and may have only as many Licensed Users simultaneously using a Program at any given time as the number of Concurrent keys acquired
 - 3.2. **MATLAB Distributed Computing Server.**
 - 3.2.1. Licensees of the MDCS are permitted to install and make available Programs, other than Programs that are technically limited or otherwise limited as set forth at mathworks.com/ineligible_programs, on one or more Computers ("Computer Cluster") solely for use through the MDCS, provided that (1) the Programs on the Computer Cluster are controlled by a single License Manager for each MDCS, (2) the number of simultaneous Program sessions does not exceed the number of MDCS workers acquired, (3) access to any Program, whether in the MDCS or otherwise, remains limited to those persons who are Licensed Users of such Programs and the Parallel Computing Toolbox ("PCT"); (4) access to any worker must be enabled through a validly licensed use of the PCT; and (5) access to any Program, including the MDCS, is not made available (i) to any Third Party without the advance written consent of MathWorks, or (ii) to any user outside the country for which the MDCS is licensed, unless the Licensee has contracted for global use. For the purposes of the immediately preceding sentence, member countries of the North American Free Trade Agreement ("NAFTA") shall be treated as a single country, and Iceland, Norway, Switzerland, and any member countries of the European Union ("EU") shall also be treated as a single country.
 - 3.2.2. Notwithstanding the restriction contained in Section 3.2.1(2) immediately above but subject to all other restrictions in Section 3.2.1, Licensed Users of MDCS may also scale the number of MDCS workers on the following additional terms: (1) Licensee employs the MathWorks Hosted License Manager ("MHLM") for its license management; and (2) Licensee agrees, on behalf of its Licensed Users, to the terms of use at mathworks.com/cloudcenterandondemandtermsofuse, including the obligation to pay all MDCS on-demand fees incurred by its Licensed Users applicable to their on-demand use, if any, of MDCS workers. Any fees that may be due to any cloud providers for use of their platforms, products, or services are separate and are the responsibility of the Licensee.
 - 3.3. **MATLAB Production Server.** Licensees of the MATLAB Production Server ("MPS") are permitted to install and use MPS for the sole purpose of scheduling and running Applications generated with Licensee's validly licensed MATLAB Compiler Program, provided that the number of workers running simultaneously on one or more computers does not exceed the number of MPS workers acquired. Licensee may make the Applications running on MPS accessible to end users globally, including Third Parties, via a web interface, or other interface provided by Licensee, subject to the restrictions of Section 5.2 of the *Deployment Addendum*.
 - 3.4. **Polyspace Bug Finder and Polyspace Code Prover.** Notwithstanding the provisions of Section 3.1 above, the number of Polyspace verification runs that a Licensed User may simultaneously execute using the Polyspace Code Prover or the Polyspace Bug Finder shall not exceed the number of keys available for the respective Polyspace Program.

4. REMOTE AND SHARED OPERATION.

Subject also to the foregoing:

- 4.1. **Remote Access to the Desktop.** Using the Microsoft Remote Desktop connection feature or similar technologies:
 - 4.1.1. Named Users and Network Named Users may remotely access Programs for which they are licensed.
 - 4.1.2. Concurrent Licensed Users may remotely access Programs served by the License Manager for the License under which they are operating.
 - 4.1.3. The Licensee of a Designated Computer License may designate one Licensed User to remotely access the Programs licensed on the Designated Computer for operation on that Designated Computer. Licensee may redesignate such Licensed User, whether temporarily or not, no more than four (4) times in any twelve (12) month period.
- 4.2. **Shared Access to the Desktop.**
 - 4.2.1. A Licensed User using Microsoft Remote Assistance technology, NetMeeting conferencing software, or similar technologies may share remotely the desktop view of a Program session with another individual for assistive or demonstrative purposes only.

This is an Addendum to *The MathWorks, Inc. Software License Agreement (the "Agreement")*, and the terms and conditions of this Addendum are incorporated therein. Each capitalized term used herein and not defined herein shall have the meaning ascribed to it in the Agreement.

1. **SCOPE.** The provisions of this *Academic Installation and Use Addendum* apply to each Program licensed under the Agreement at prices offered only to degree-granting educational institutions ("Academic prices") for Academic Internal Operations only, as defined below. Research and development divisions and centers of universities, U.S. government agencies and other not-for-profit organizations do not qualify for Academic prices. This Addendum imposes certain additional obligations and restrictions with respect to the Programs licensed at such Academic prices that are not contained in the Agreement. The applicable provisions are determined by the particular Academic License Option that Licensee acquires for each Program. In the event of a conflict between the provisions of this Addendum and the Agreement, these Addendum provisions shall apply.

2. DEFINITIONS.

- 2.1. **Academic Internal Operations.** The installation and use of the Programs by Licensed Users, in accordance with the Academic License Option acquired, for the purpose of (i) in the case of employees (faculty and academic staff), performing software administration, teaching, and noncommercial, academic research in their ordinary course as Licensee's employees; and (ii) in the case of enrolled students, meeting classroom requirements of courses and study offered by the Licensee. Any other use is expressly prohibited.
 - 2.2. **Licensed Users.** All enrolled students and employees (faculty and academic staff) of the Licensee who are authorized by Licensee to use the Programs for Academic Internal Operations in accordance with the Agreement, as revised from time to time, and to the extent permitted by the Academic License Option acquired. As used herein, "employees" excludes subcontractors and consultants of the Licensee. Individuals under thirteen (13) years of age may be Licensed Users if their parent or guardian has previously consented to such individual's use of the Programs. Licensee agrees to collect such consent prior to providing any such individuals with access to the Products, and to store such consent in a retrievable way.
 - 2.3. **Academic License Option.** The specific rights, restrictions, and obligations under which Licensee may install and use a Program pursuant to the Agreement.
 - 2.4. **Named User.** Licensed User designated and identified by Licensee as the "Named User" for a License to a Program under the "Individual License Option".
3. **INSTALLATION AND USE.** Specific rights, obligations, and restrictions apply to each Academic License Option. Licensee's right to install and use the Programs is determined by the Academic License Option acquired. By accepting the terms and conditions of the Agreement, Licensee also accepts the Academic License Option acquired, and agrees to use the Programs only for Academic Internal Operations.

3.1. Academic License Options.

- 3.1.1. **Individual.** Program use is restricted to the single, designated Named User. Programs may be activated and used on one or more individual Computers, provided the Programs are only accessible to, and used by, the Named User for that License. The physical locations of the Computers used by the Named User to run the Programs are not limited; the Computers may be located at work, home, in a laboratory, or on a laptop. Licensee may only designate one Named User access to or use of the Programs under each Individual License. A Computer login of a Named User may not be shared with any other individual. Licensee may redesignate the Named User for a Program, whether temporarily or not, no more than four (4) times in any twelve (12) month period. A Named User may not use a Program on more than two (2) Computers simultaneously.

- 3.1.2. **Designated Computer.** The Programs may only be activated and used on a single, physical (not virtual) designated Computer, provided the Programs are only operated from that Computer's console by only one Licensed User at any given time. Licensee may redesignate the Computer for a Program to a different Computer, whether temporarily or not, no more than four (4) times in any twelve (12) month period.
- 3.1.3. **Concurrent.** Programs must be activated on a single Computer. Licensee must run the License Manager and may have only as many Licensed Users simultaneously operating a Program at any given time as the number of Concurrent keys acquired for that Program. Subject to the foregoing, a Licensed User of the Concurrent License Option may utilize the Programs on any number of Computers served by a single License Manager provided that, before using a Program on any Computer, the Licensed User checks out a separate Concurrent key from the License Manager for that Computer. Programs may be installed in a central location, on institution-owned or Licensee's faculty, research and academic staff personally-owned computers to accelerate startup times, as long as the installations on the individual Computers are controlled by the License Manager. Licensee is prohibited from allowing installation of the Programs on students' own computers. Licensees of the Concurrent License Option are prohibited from providing Program access to users located outside a single country.
- 3.1.4. **Classroom.** Program use is restricted to students, instructors, and software administrators, in on-campus facilities that are used solely in support of classroom instruction of students at degree-granting institutions. Visiting course instructors and contractors may use a copy of the Programs solely for the purpose of classroom instruction or preparation for classroom instruction. Research use is not permitted.
- 3.1.5. **Primary and Secondary Schools.** Primary and secondary schools located at a single physical address may authorize their faculty, academic staff, and students to use the License on teachers' computers, school-owned computers or student-owned computers, for Academic Internal Operations only. Technical support is available for faculty and academic staff, but not for students.
- 3.1.6. **Total Academic Headcount.** Programs may be installed and used by Licensed Users both on institution-owned or leased Computers and on personally-owned or leased Computers. Technical support is available for faculty and academic staff, but not for students.
- 3.1.7. **Total Student Headcount.** Programs may be installed and used by Licensee's students only on their personally-owned or leased Computers. Student Licensed Users may not use a Program on more than two (2) Computers simultaneously. Programs licensed under the Total Student Headcount License Option may not be used by Licensee's faculty and academic staff. Technical support is not available.

3.2. MATLAB Distributed Computing Server.

- 3.2.1. Licensees of the MDCS are permitted to install and make available Programs, other than Programs that are technically limited or otherwise limited as set forth at [mathworks.com/ineligible_programs](https://www.mathworks.com/licenses/licenses.html), on one or more Computers ("Computer Cluster") solely for use through the MDCS, provided that (1) the Programs on the Computer Cluster are controlled by a single License Manager for each MDCS; (2) the number of simultaneous Program sessions does not exceed the number of MDCS workers acquired, except as set forth in Section 3.2.2 and 3.2.3; (3) access to any Program, whether in the MDCS or otherwise, remains limited to those persons who are Licensed Users of such Programs and the Parallel Computing Toolbox ("PCT"); (4) access to any worker must be enabled through a

validly licensed use of the PCT; and (5) access to any Program, including the MDCS, is not made available (i) to any Third Party without the advance written consent of MathWorks, or (ii) to any user outside the country for which the MDCS is licensed.

- 3.2.2. Subject to all other restrictions in Section 3.2.1, Licensed Users of MDCS may also scale the number of MDCS workers on the following additional terms: (1) Licensee employs the MathWorks Hosted License Manager (“MHLM”) for its license management; and (2) Licensee agrees, on behalf of its Licensed Users, to the terms of use at mathworks.com/cloudcenterandondemandtermsofuse, including the obligation to pay all MDCS on-demand fees incurred by its Licensed Users applicable to their on-demand use, if any, of MDCS workers. Any fees that may be due to any cloud providers for use of their platforms, products, or services are separate and are the responsibility of the Licensee.
- 3.2.3. Subject to the restrictions in Sections 3.2.1(3), 3.2.1(4) and 3.2.1(5), if MDCS is acquired by Licensee for the Total Academic Headcount License Option, the number of simultaneous worker sessions per Licensed User may not exceed the number of MDCS workers licensed.
- 3.3. **MATLAB Production Server.** Licensees of the MATLAB Production Server (“MPS”) are permitted to install and use MPS for the sole purpose of scheduling and running Applications generated with Licensee’s validly licensed MATLAB Compiler Program, provided that the number of workers running simultaneously on one or more computers does not exceed the number of MPS workers acquired. Licensee may make the Applications running on MPS accessible to end users globally, including Third Parties, via a web interface, or other interface provided by Licensee, subject to the restrictions of Section 5.2 of the *Deployment Addendum*.

4. REMOTE AND SHARED OPERATIONS

Subject also to the foregoing:

- 4.1. **Remote Desktop Access.** Using the Microsoft Remote Desktop connection feature or similar technologies:
 - 4.1.1. Named Users may remotely access Programs for which they are licensed.
 - 4.1.2. Concurrent Licensed Users may remotely access Programs served by the License Manager for the License under which they are operating.
 - 4.1.3. The Licensee of a Designated Computer License Option may designate one Licensed User to remotely access the Programs licensed on the Designated Computer for operation on that Designated Computer. Licensee may redesignate such Licensed User, whether temporarily or not, no more than four (4) times in any twelve (12) month period.
 - 4.1.4. Licensed Users of the Total Academic Headcount License Option and Total Student Headcount License Option may remotely access Programs for which they are licensed.
- 4.2. **Shared Access to the Desktop.**
 - 4.2.1. A Licensed User using Microsoft Remote Assistance technology, NetMeeting conferencing software, or similar technologies may share remotely the desktop view of a Program session with another individual for assistive or demonstrative purposes only.

The MathWorks, Inc. Software License Agreement – Student License and Home License Installation and Use Addendum

This is an Addendum to *The MathWorks, Inc. Software License Agreement (the "Agreement")*, and the terms and conditions of this Addendum are incorporated therein. Each capitalized term used herein and not defined herein shall have the meaning ascribed to it in the Agreement.

- 1. SCOPE.** The provisions of this Student License and Home License Installation and Use Addendum apply to the MATLAB and Simulink Programs and to any other Programs licensed under the Agreement at prices offered to students enrolled in degree-granting educational institutions ("Student Use prices") or to individuals for personal use ("Home Use Prices"). This Addendum imposes certain additional obligations and restrictions with respect to the Programs licensed at such Student Use and Home Use prices that are not contained in the Agreement.
- 2.** In the event of a conflict between the provisions of this Addendum and the Agreement, these Addendum provisions shall apply. In this Addendum, the license provided to students is referred to as a "Student License", and the license provided to individuals for personal use is referred to as the "Home License".
- 3. RETURNS AND REFUNDS.** Returns and refunds of Student License and Home License purchases are subject to the refund policies at the time and point of purchase.
- 4. REGISTRATION AND ACTIVATION.** The Programs contain technology for the prevention of unlicensed or illegal use of the Programs. Licensee agrees to the use and application of such technology in the Programs (a) to limit the use of the Programs by Licensee to a finite number of Computers, and (b) to require Licensee's registration of the Student License and activation of the Programs in advance of the use of the Programs (other than for temporary use) as further described in this Addendum and in the Documentation for the Programs.
- 5. ELIGIBILITY, INSTALLATION, AND USE.** Licensee agrees to the following eligibility and use restrictions of the Student License and the Home License: a Licensee of a Student License must be a student enrolled in a degree-granting educational institution or participating in a continuing education program at a degree-granting educational institution and may use the license only for student activities that are not commercial, for profit, professional, or revenue generating activities for the period of such student use; a Licensee of a Home License must be an individual and may use the license only for personal use and not for professional, academic, or commercial use, including for profit or revenue generating activities, and only for the period of such personal use.

The Student License and Home License each permit the Licensee to use the Programs on one Computer that Licensee owns or leases provided (i) the Programs are only accessible to, and used by, Licensee, and (ii) Licensee has provided machine-specific identification for such Computer through the registration and activation process.
- 6. PARENTAL CONSENT.** Individuals under thirteen (13) years of age may be Licensed Users if their parent or guardian has previously consented to such individual's use of the Programs. Licensee agrees to collect such consent prior to providing any such individuals with access to the Programs, and to store such consent in a retrievable way.
- 7. TECHNICAL SUPPORT.** Technical support for Licensees of Student Licenses and Home Licenses is limited to installation and activation support.
- 8. ASSIGNMENT.** Neither a Student License nor a Home License is transferable.
- 9. PRIMARY AND SECONDARY SCHOOL USE.** Teachers and students at primary and secondary education schools may license the Student License. Teachers may also use the Student License on the teacher's computer or school-owned computers.

The MathWorks, Inc. Software License Agreement – Deployment Addendum

This is an Addendum to *The MathWorks, Inc. Software License Agreement (the "Agreement")*, and the terms and conditions of this Addendum are incorporated therein for use of the Programs. Each capitalized term used herein and not defined herein shall have the meaning ascribed to it in the Agreement.

1. PURPOSES. The Agreement contains restrictions prohibiting Licensee from modifying, distributing, or providing access to the Programs or any Program Components (as defined below), except as expressly provided in this Addendum. Because the Programs licensed by Licensee under the Agreement contain Source Code or Object Code Program Components, this Addendum sets forth the Licensee's rights with respect to creating software or applications using the Programs or any Program Component, as well as certain additional obligations related thereto. This Addendum also states restrictions and obligations with respect to the use of the Programs or any Program Component, which also may have a bearing on the creation or distribution of software or applications.

MathWorks or its Licensors retain all right, title, and interest in its Programs, Program Components, and Derivative Forms of its Programs.

2. USER CREATED FILES. This Addendum does not apply to MATLAB code files, Simulink model files, MEX-files, MAT-files, VHDL-files, Verilog-files, FIG-files and P-files that are created by Licensee and that do not include any code obtained from MATLAB code files, Simulink model files, MAT-files, P-code, C/C++ files, VHDL-files, Verilog-files, TLC-files, or other Source Code files supplied with the Programs ("User Files"). Licensee may distribute or sublicense without restriction, User Files provided that a principal purpose of the distribution or sublicense is not to replace or replicate a Program or any part of a Program.

3. NONCOMPETITION. Notwithstanding anything else contained in this Agreement, Licensee agrees not to use, test, benchmark, reverse engineer or determine the expression or the design of, the Programs, Derivative Forms, Generated Forms, or Program Components to make, or distribute its own or a Third Party's application or software, a principal purpose of which, as reasonably determined by MathWorks, is to perform the same or similar functions as Programs licensed by MathWorks or which replaces any component of the Programs. Licensee shall not otherwise use the Programs to compete with the products or businesses of MathWorks, including by distributing Libraries, or any form of an entire Program or a substantial portion of a Program.

4. DEFINITIONS.

- 4.1. **Application.** A software file that Licensee has created by either (a) using a MathWorks Program to compile or translate Licensee created Source Code or (b) incorporating or linking any part of any Source Code, library file, or other Program Component provided with the Program. An Application must contain original code developed by Licensee and must provide substantial functionality not contained in, or provided by, the Program Components that are incorporated into such Application. If a software file created by a Licensee incorporates Program Components, but does not meet the requirements of the previous sentence, then it is a Derivative Form (as defined below). An Application may contain Linked Object Code which, if such Object Code was not Linked to the Application and was a standalone file, would otherwise have been deemed a Derivative Form.
- 4.2. **Application License.** A license provided by Licensee to its end-users for the installation and use of Licensee's Application and any Third Party Software made available for use with the Application.
- 4.3. **Generated Forms.** The output of the MATLAB Compiler, the MathWorks Coder Programs, and other MathWorks' code generation Programs in the form of Source Code or Object Code, as well as such Source Code converted to Object Code or Linked forms.
- 4.4. **Derivative Forms.** A software file that Licensee has derived from one or more Program Components (including without limitation by incorporating, translating, or modifying, in whole or in part, any Program Component), and which, if modified or copied without

MathWorks' authorization, would constitute a copyright infringement or breach of the Agreement. A software file created by Licensee which qualifies as an "Application" under the above definition shall not be deemed a Derivative Form.

- 4.5. **Linked.** An executable or loadable file created by a compiler or linker program combining Object Code module files.
 - 4.6. **MAT-file.** The file format in which MATLAB stores data.
 - 4.7. **MATLAB Runtime.** MATLAB Runtime support libraries and other files for deployment of Applications created with the MATLAB Compiler.
 - 4.8. **Object Code.** The code created by a system compiler from source code; also called "machine-readable code". Object Code can be Linked with an appropriate linker to resolve address references and may be combined with other Object Code for targeted execution on a specific processor. Object Code includes "Object Code libraries" and "shared libraries," which are groupings of Object Code for specific purposes.
 - 4.9. **Program Component.** Any portion of, or file provided with, a Program.
 - 4.10. **Source Code.** Human-readable program code written in a higher-level language such as C, C++, Java, MATLAB, MDL, VHDL, Verilog, or Fortran, which must be translated or compiled into machine-readable language before it can be executed by a computer. Source Code also includes header files and other human-readable files necessary for a Program to be compiled in the higher-level language.
 - 4.11. **Standalone Application.** An Application created using programming languages and tools other than the Programs, which executes outside of the Programs.
 - 4.12. **Deployment Program.** The MATLAB Compiler, MATLAB Compiler SDK, and any of MathWorks Coder Programs as defined in Section 4.13 below.
 - 4.13. **MathWorks Coder Programs.** MATLAB Coder, Filter Design HDL Coder, Simulink Coder, HDL Coder, Simulink PLC Coder, and Embedded Coder.
- 5. DEPLOYMENT PROGRAMS.** Licensed Users of MathWorks' Deployment Programs may automatically generate code from MATLAB code files, Simulink/Stateflow diagrams, and other representations, into Generated Forms. Furthermore, Licensee may copy and deploy these Generated Forms for use outside of the Programs.
- 5.1. **Deployment from MathWorks Coder Programs.** MathWorks provides directories of C, C++, Assembly, linker command files, template makefiles, project files, and TLC source code files with Programs that implement the real-time framework. Such files made available in any of the MathWorks Coder Programs may only be modified and deployed in Source Code or Linked Object Code form for different development targets when used with such Programs or with code generated by such Programs as part of, and only as required by, a larger Standalone Application. MathWorks Coder Programs cannot be used to create an Application (a) providing capability similar to the capabilities of any of the Programs; (b) providing functionality or behavior similar to that of the MATLAB command line or scripting and programming capabilities; (c) allowing operation of the code generation capabilities of Programs; (d) providing access to an entire Program or a substantial portion of a Program; or (e) enabling evaluation of end-user code or expressions.
 - 5.1.1. Licensee may copy and deploy these files outside of the Programs in Linked Object Code form or Source Code form, if only used in combination with code generated by those Programs as part of a larger standalone Application.
 - 5.1.2. No further fees shall be due to MathWorks for such deployment within Licensee's Application, regardless of whether the Application is deployed solely for Licensee's Internal Operations or to Third Parties.

- 5.2. **Deployment from MATLAB Compiler.** Licensed Users may deploy copies of Applications generated by the MATLAB Compiler that incorporate compiled versions of MATLAB code files from licensed Programs required for such Applications. Licensee may also use and distribute the MATLAB Runtime together with such Applications for the sole purpose of running the Applications. Licensee is prohibited from making copies of the MATLAB Runtime accessible to any Third Party separate from or for use other than with a Licensed User's Application, or provide the MATLAB Runtime for service bureau or similar service use.

Licensee agrees to employ the same security measures to protect the MATLAB Runtime as it uses to safeguard Licensee's own proprietary intellectual property, but in no event less than reasonable care.

No additional license fees shall be due to MathWorks for the distribution of the required MATLAB code files incorporated in the generated Application, or for the distribution of the MATLAB Runtime when deployed together with such Applications, regardless of whether the Application and the MATLAB Runtime are distributed for the purposes of Licensee's Internal Operations or to Third Parties.

- 5.2.1. Licensed User may include, by compilation for deployment, only those select MATLAB code files from the licensed Programs required for the Application.
 - 5.2.2. In no event shall Licensee distribute any library header files.
 - 5.2.3. Licensee's Application may not provide capability similar to the capabilities of any of the Programs or provide functionality or behavior similar to that of the MATLAB command line or scripting and programming capabilities, nor may Licensee's Application enable evaluation of end-user code or expressions.
 - 5.2.4. Licensee's Application may not allow operation of the code generation capabilities of Programs.
 - 5.2.5. Licensee's Application may not provide access to an entire Program or a substantial portion of a Program.
 - 5.2.6. Licensee's Application incorporating any functionality of the Parallel Computing Toolbox ("PCT") may enable the same or fewer number of local workers provided by the PCT used to build the Application, even if the Application's end user does not possess a license to the PCT.
 - 5.2.7. Licensee shall include the notice "MATLAB". © 1984 - [INSERT YEAR MATLAB VERSION PUBLISHED] The MathWorks, Inc." in the deployed Application's About Box, or similar visible location, and in the applicable documentation distributed with each copy of the Application.
 - 5.2.8. Licensee may not modify or remove any proprietary notice or license file that is included with the MATLAB Runtime.
- 5.3. **Simulink Desktop Real-Time.** Licensee may not incorporate Simulink Desktop Real-Time into an Application for deployment without contracting with MathWorks for an OEM or VAR agreement.
- 5.4. **Simulink Real-Time.** Licensee may develop Applications that incorporate Object Code derived from Program Components of Simulink Real-Time which are required for the Application and that have been compiled or otherwise obtained from Simulink Coder on a single development PC, download that Application to a target PC, and distribute that Application beyond the target PC.

No further fees shall be due to MathWorks for such distribution of Licensee's Application, regardless of whether the Application is distributed solely for Licensee's Internal Operations or to Third Parties. Additionally, the Simulink Real-Time Program allows for

the distribution beyond the development PC of API DLLs as part of the Application and other Applications exported from Simulink Real-Time Explorer. No further fees shall be due to MathWorks for such distribution, regardless of whether the API DLLs are distributed solely for Licensee's Internal Operations or to Third Parties.

6. OTHER SOURCE CODE AND SHARED OBJECT CODE LIBRARIES.

- 6.1. Programs may include selected Source Code and shared Object Code library files that implement various documented application programming interface capabilities of the Programs for which the Source Code or shared library file is part.
- 6.1.1. Licensed User may use and modify the selected Source Code files solely for creation of Licensee's own Applications. Licensee may copy and distribute Object Code compiled from this Source Code, but only as either standalone Object Code file (regardless whether a Derivative Form) or Object Code Linked to the Application, and only for use with and deployment of Licensee's own Application.
 - 6.1.2. Licensee may use, copy and distribute shared Object Code library files (regardless whether a Derivative Form) for deployment of Licensee's own Application, but only if a header file exists in the Program for the shared library file. Licensee may not copy or distribute header files themselves.
 - 6.1.3. Licensee may not transfer Source Code, development rights, or development capabilities for any Source Code or Object Code to any Third Party.
- 6.2. **MAT-files.** Licensed User may create and distribute Applications that read MAT-files using the MAT-file API, however, if such Applications are distributed to Third Parties, they must also implement MAT-file write capability.
7. **DERIVATIVE FORMS.** A Licensee shall only be permitted to distribute a Derivative Form to Third Parties (a) to the extent expressly permitted under Articles 5 or 6 of this Addendum, or (b) subject to the requirements of this Article 7. A Licensee may only distribute a Derivative Form to a Third Party under this Article 7 if such Third Party is bound by a Software License Agreement with MathWorks that requires such Third Party to treat such Derivative Forms received from Licensee as such Third Party's own Derivative Form thereunder. Licensee agrees that if such a Third Party provides Licensee with software that is a Derivative Form under the terms of such Third Party's Software License Agreement with MathWorks (or would otherwise be a Derivative Form under the terms of this Agreement), then Licensee shall treat such software as a Derivative Form hereunder as if Licensee has modified or generated the software itself.

8. **WEB APPLICATIONS.** Programs licensed under the Concurrent, the Network Named User, the Individual, and the Total Academic Headcount License Options may be called by means of a web interface in accordance with the following conditions. Programs licensed under any other License Option may not be called via a web interface.

For the Concurrent License Option. Programs licensed under the Concurrent License Option may be called via a web application, provided the web application does not provide access to the MATLAB command line, or any of the licensed Programs with code generation capabilities. In addition, Licensed Users may not provide access to an entire Program or a substantial portion of a Program, nor may such application enable evaluation of end-user code or expressions. Such operation of an application via a web interface or web server may be provided to an unlimited number of web clients, at no additional cost, for Licensee's own use for its Internal Operations, and for use by Third Parties.

For the Network Named User and Individual License Options. Programs licensed under the Network Named User and Individual License Options may be

called via a web application, provided the web application does not provide access to the MATLAB command line, or any of the licensed Programs with code generation capabilities, and such application is only accessed by designated Network Named User or Individual licensees of such Programs. In addition, Licensed Users may not provide access to an entire Program or a substantial portion of a Program, nor may such application enable evaluation of end-user code or expression.

For the Total Academic Headcount License Option. Programs licensed under the Total Academic Headcount License Option may be called via a web application, provided the web application does not provide access to the MATLAB command line, or any of the licensed Programs with code generation capabilities. In addition, Licensed Users may not provide access to an entire Program or a substantial portion of a Program, nor may such application enable evaluation of end-user code or expressions. Such operation of an application via a web interface may be provided to an unlimited number of web browser clients, at no additional cost, for Licensee's own use for its Academic Internal Operations, and for use by Third Parties.

9. APPLICATION LICENSING. For any distribution of Applications containing Object Code or Generated Forms to:

- 9.1. **Licensee's internal organization:** Licensee shall take appropriate action by instruction, agreement, or otherwise with any recipients of the Application, so as to enable Licensee to satisfy its obligations under the terms of this Addendum and the Agreement.
- 9.2. **Third Parties:** Your Application shall require acceptance of an Application License whose terms and conditions are at least as restrictive as the Agreement, unless the Application is part of an embedded system that has no provision for licensing to its end users.
 - 9.2.1. The Application license for Third Parties must explicitly exclude MathWorks and its Licensors from all liability for damages or any obligation to provide remedial actions. In no circumstance shall Licensee include a warranty for any form of a Program that is inconsistent with or additional to the warranty contained in the Agreement.
 - 9.2.2. The additional translation, use, and deployment rights granted in this Addendum are nontransferable without MathWorks' consent and shall not be conveyed in Licensee's Application license.
 - 9.2.3. All copyright and proprietary notices for the Programs that appear in the original form delivered to Licensee shall be duplicated and included with Licensee's own copyright notices for the Application, wherever they appear.
 - 9.2.4. Licensee may not remove any copyright, trademark, logo, proprietary rights, disclaimer or warning notice included on or embedded in any part of the deployed Application.
 - 9.2.5. If Licensee's Application is generated with the MATLAB Compiler, then Licensee's Application License shall include or incorporate by reference the terms of the MATLAB Runtime License included in a text file at [MCR Install Directory]\[version_number]\MCR_license.txt located within the installation for the MATLAB Runtime.
- 9.3. Notwithstanding the termination of the Agreement, all valid Application licenses shall remain and continue in full force and effect, and, if the Agreement was not terminated due to: (a) Licensee's failure to pay the applicable fees to MathWorks, (b) Licensee's violation of the License restrictions, or (c) violation of MathWorks' proprietary rights in the Programs; then Licensee may continue to use the Programs to support Applications that have been placed in use pursuant to an Application License prior to the effective date of termination.

10. DISCLAIMER OF OBLIGATIONS AND LIABILITY.

- 10.1. MathWorks shall have no support or warranty obligations, and disclaims all liability, for Applications developed or distributed by Licensee.
 - 10.2. **Licensee agrees that prior to using, incorporating, or distributing the Programs in any Application, it will thoroughly test and validate the Application and the functionality of the Programs in that Application and be solely responsible for any problems or failures.**
 - 10.3. Licensee will defend, indemnify, and hold harmless MathWorks and its Licensors, officers, directors, employees, agents and resellers from and against any damages, liabilities, costs and expenses (including reasonable fees of MathWorks' attorneys) arising out of any Third Party claim or demand based on or arising from, out of or in connection with (i) the creation, use, or distribution of any Applications by Licensee or any of its Affiliates or (ii) the use of the Programs by Licensee or any of its Affiliates.
- 11. GENERAL.** Licensee acknowledges and agrees that a breach of the obligations set forth in this Addendum shall be a material breach of the Agreement.
