

RN to Bachelor of Science in Nursing Program Provisional Admittance Acknowledgment

I understand that I am provisionally admitted to the RN to Bachelor of Science in Nursing program for a time frame not to exceed 12 months from the date of admittance.

I understand that:

- I must earn a permanent RN license within 12 months of my provisional admittance date as a condition of my continued enrollment in the program.
- If RN licensure is not achieved within this time, I understand I will automatically be withdrawn from the Bachelor of Science in Nursing program.
- My course registrations will be limited to general education courses, NUR 336 The Profession of Nursing: Becoming Influential, NUR 338 Introduction to Informatics for Nurses, and a nursing elective (if needed) until I hold a permanent, active, and unencumbered RN license, only after which I become eligible to take the remainder of the coursework in the program.
- The lower-level nursing block credit will be added to my MAPlanner after I successfully complete the NCLEX-RN examination. I am subject to all academic and administrative policies applicable for students enrolled in the Excelsior College RN to Bachelor of Science in Nursing Program.

I acknowledge understanding of the above information by signing this form.
