Logistics Management	Completion Rate	N/A	N/A	N/A
Bachelor of Professional Studies in Business and Management	Completion Rate	34.81%	42.96%	48.92%

Indicators Used

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
Completion Rate	<p>The completion rate is the ratio of students who completed the degree after n years of enrollment to the students in cohorts FY12-FY21 who had reached their n years of enrollment as of the end of FY21. For example, the 2- year completion rate for Master of Business Administration General Track is 11.11%. It means that among the students in cohorts FY12-FY21 who had enrolled more than 2 years (cohorts FY12-FY19), 11.11% of them completed the program after 2 years of enrollment.</p> <p>Fiscal year cohorts were aggregated and for programs with at least 20 students a completion rate was provided (N/A indicates there was insufficient data to provide a completion rate for that program/year).</p>
