* The concentration has not been offered long enough to have completion or retention numbers with more than 10 students

Calculations for Measures

MEASURE	DESCRIPTION AND HOW IT WAS CALCULATED
Completion for Master's Level Programs	Completion is determined at 150% of normal time to completion (3 years after the enrollment date for master's degree programs). Percentages are calculated for program combinations with 10 or more students that began their enrollment during Excelsior's 2019-2020 academic year (7/1/2019-6/30/2020). Students enrolled in prior "no concentration" versions of the programs were included in the current "general" versions.
Completion for Bachelor's Level Programs	Completion is determined at 150% of normal time to completion (6 years after the enrollment date for bachelor's degree programs). Percentages are calculated for program combinations with 10 or more students that began their enrollment in the program

	during Excelsior's 2016-2017 academic year (7/1/2016-6/30/2017).
Retention for All Programs	Retention is the percentage of students in a fiscal-year cohort who remain enrolled at 12 months after their initial enrollment date. Percentages are calculated for program combinations with 10 or more students that began their enrollment during Excelsior's 2021-2022 academic year (7/1/2021-6/30/2022).
