Marketing	1-year retention rate	73%	72.7%
	6-year completion rate	53%	50%

*\*Insufficient data available for this concentration; less than 10 students.*

### Calculations for Measures

MEASURE	DESCRIPTION AND HOW IT WAS CALCULATED
Completion for Master's Level Programs	<p>Completion is determined at 150% of normal time to completion (3 years after the enrollment date for master's degree programs).</p> <p>Percentages are calculated for program combinations with 10 or more students that began their enrollment during Excelsior's 2022-2023 academic year (7/1/2022-6/30/2023).</p> <p>Students enrolled in prior "no concentration" versions of the programs were included in the current "general" versions.</p> <p>The target is calculated using the program completion rate average for the past three years rounded to the nearest whole number. For concentrations with fewer than 10 students, the overall program target was applied.</p>
Completion for Bachelor's Level Programs	<p>Completion is determined at 150% of normal time to completion (6 years after the enrollment date for bachelor's degree programs).</p> <p>Percentages are calculated for program combinations with 10 or more students that began their enrollment in the program during Excelsior's 2018-2019 academic year (7/1/2018-6/30/2019).</p> <p>The target is calculated using the program completion rate average for the past three years rounded to the nearest whole</p>

MEASURE	DESCRIPTION AND HOW IT WAS CALCULATED
	number. For concentrations with fewer than 10 students, the overall program target was applied.
Retention for All Programs	<p>Retention is the percentage of students in a fiscal-year cohort who remain enrolled at 12 months after their initial enrollment date. For concentrations with fewer than 10 students, the overall program target was applied.</p> <p>Percentages are calculated for program combinations with 10 or more students that began their enrollment during Excelsior's 2023-2024 academic year (7/1/2023-6/30/2024).</p> <p>The target is calculated using the program retention rate average for the past three years rounded to the nearest whole number.</p>
